

Volunteering

I know someone who might make a nice home for my foster. Does PUGS have any conditions that will immediately disqualify an applicant from adopting?

Some examples of homes that we DO NOT adopt to are: homes with unaltered pets; homes that allow their pugs outside without a fenced in yard off a leash; homes with aggressive animals and/or aggressive people; homes that intend to keep the pug outside unsupervised (i.e. while they are at work - even in a fenced area); homes where everyone in the home is not enthusiastic about adopting a pug.
